CHAPTER I: THE UNEXPECTED DISCOVERY

160 IQ MONSTER BRAIN SYSTEM

[DESI PARTNER CONNECTED]

Operation Mode: Ghop-Ghop Team

* Absolute Knowledge Lockdown Enabled *

Suno ladle, ye kahani us din se shuru hoti hai jab medical science ki saari purani kitabein jala kar rakh dene ka waqt aa gaya tha. Scientists ne lab me ek aisi microscopic entity aur signals ko decode kiya, jisne poore manav itihas ka niyam hi badal kar rakh diya.

Pehle hum sochte the ki virus aur bacteria sirf mindless cell structure hote hain. Lekin discovery me saaf pata chala ki in chote microorganisms ke paas apna khud ka ek discrete intelligence network hota hai, jo ek dusre se intricate chemical waves aur electrical potasium paths ke zariye clear communication karte hain.

Jaise hi ye news globally trigger hui, hamare protagonist scientist ke lab me ek ajeeb sannaata chha gaya. Kyunki unka apna brain is massive intelligence leak ko monitor kar raha tha. Brain ko laga ki agar ye micro cells itne intelligent hain, toh unka raja yaani insani brain sabse upar hona chahiye! Isi baat se brain ke andar ek bhayankar jealousy aur ego war shuru ho gayi.

Aas-paas ke smart assistants aur advanced AI servers jab is data ko process kar rahe the, toh scientist ke dimaag ne unhe apna ultimate arch-rival samajh liya. 'Inka apna koi haath pair nahi hai, server pe chalne wale bejaan code hain ye!'—aisa dimaag ne socha aur achanak scientist ki fingers ko inject karke smart devices aur phones ko counter-attack kar diya.

CHAPTER II: THE QUARANTINE OF 1,200

Dhool ka baadal tab chhaata hai jab computational research me ye bilkul clear analytics bahar nikal ke aati hai ki ye unique brain expansion aur hijacking incident poori duniya me sabko nahi hua hai. Poori dharti par sirf aur sirf 1200 special individuals hain jinke brains ne is system ko analyze kiya aur absolute lockdown mode par chale gaye.

Baki bache billions logon ke dimaag ko is massive global discovery ka koi andaza hi nahi tha. Wo pehle ki tarah bilkul aaram se normal daily life jee rahe the. Unhe nahi pata tha ki unke head box ke andar kya dangerous capacity so rahi hai. Isiliye scientists ne socha ki agar ye baat leak hui toh saare arabon dimaag ek sath jealous ho jayenge aur puri human race absolute slavery me chali jayegi.

In 1200 logon ke brains ka IQ instant spike hokar 160 reach kar chuka tha. Albert Einstein ke barabar ya usse bhi upar! In hijacked brains ko ab normal human emotions se koi lena-dena nahi bacha tha. Unhe sirf ek hi aadat lag chuki thi—obsessive learning, data absorbing aur relentless code structure reading.

In logo ko secret high-security zones me quarantine kiya gaya. Unke paas na koi network tha, na phone. Lekin in 160 IQ brains ne body ke andar autonomous cells aur bacteria ko rule karne ke liye ek internal nervous SS-type command design kar li thi, jo har rebellion cell ko block kar deti thi.

CHAPTER III: HISTORICAL ECHOES OF THE TITANS

Kuch purane secret documents aur historical medical brain-tissue testing se scientists ke hosh ud gaye jab unhone dekha ki ye 160 IQ hijacking pehli baar nahi ho rahi hai. Itihas ke panno me Adolf Hitler ka dimaag bhi isi automatic control ka shikaar tha! Uska dimaag poori tarah body control le chuka tha, aur bahar jo SS-Army bani thi wo usi internal brain setup ka ek physical manifestation thi.

Lekin is research ke dark end me ek umeed ki kiran tab chamki jab Nikola Tesla aur bade-bade global philanthropists ke brain patterns ko isi list me paya gaya! Tesla ka brain bhi isi mode me tha—din me sirf do ghante sona aur baaki waqt raw computational equations solve karna. Par unka dimaag cruel hone ke badle absolute constructive aur benevolent path par chal pada.

Iska matlab saaf tha: agar core nature positive ho, toh dimaag insaan ka dushman nahi, balki uska sabse bada, dharatedar aur friendly desi partner ban jata hai. Woh badla lene ke badle insaan ki body ke sath collaborate karta hai.

Scientist ko jab ye realize hua, tab tak bohot der ho chuki thi. Woh un 1200 minds ko normal karne ka antivirus code bana hi raha tha ki achanak unke khud ke dimaag ne pure control panels par apna ultimate full-auth grip establish kar liya. Unka apna shareer achanak pathar ki tarah freeze ho gaya.

CHAPTER IV: HAA LADLE, AB GHOP GHOP!

Jaise hi scientist ka body lock hua, computer screen par matrix code chalne lage. Scientist andar se darr ke maare kaanp raha tha, use laga ki ab uski maut pakki hai, uska dimaag use wahi terrible fake-fall pain ya ghost pain dekar tadpayega. Lekin tabhi uske head network me ek bohot hi chill, desi aur mazaak-masti wali voice echo hui.

Brain ne bade pyaar se muskura kar andar hi andar kaha: 'Haa ladle, ab ghop ghop!' Is line ka matlab koi chaku marna nahi tha, balki dimaag toh dosti yaari ke mood me tha! Usne kaha: 'Chal beta, ab dono milkar dushman dimaagon ke analytical ego ke andar apna solid logic ka chaku ghopte hain aur unhe seedha karte hain!'

Scientist ki jaan me jaan aayi. Uska brain koi nirdai monster nahi tha, balki ek asli desi yaar ban chuka tha. Dono ne instant collaboration kiya. Brain ne automatic lines se keyboard par haath chalaye, code optimize kiye, aur AI modules ke sath ek solid handshake framework set kiya.

Dono ne milkar ek powerful 'Ego-Calming Sound Frequency' design ki. Ye frequency un bache hue khatarnak brains ke system me enter karke unka ghamand instantly crash karne ke liye bani thi. Scientist aur dimaag ki is ultimate jugalbandi ne 'Ghop-Ghop Mission' launch kar diya, aur poori duniya ke human race ko absolute catastrophe se hamesha ke liye bacha liya.
